

# Big News for Little Learners!

Registration is now open for **Little Mountain** Transitional Kindergarten.

Transitional Kindergarten is an opportunity available for children who will be entering Kindergarten this next August.

Transitional Kindergarten is designed to provide a positive first structured learning experience for children four or five years old who will turn five on or before August 31, 2022. The program will focus on developmentally appropriate learning activities designed to help students gain confidence as learners and provide positive first school experiences for our youngest students.

The program is designed for children who have not had other structured learning experiences such as Head Start or Pre-School.

Space is limited and students will be selected based on an application and screening process. Applications are available in the Little Mountain Elementary Office, [or online here](http://mountvernonschools.org/TransitionalK). <http://mountvernonschools.org/TransitionalK>

Applications will be accepted until September 30.  
Students who meet the criteria will be invited to a screening in October.  
Students who are selected will begin school on November 4.
